***Allowable Subject Matter***

Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or render obvious a process as called for in claim 1 in which (1) the temperature of the outlet of the reactor is controlled in a specific range and (2) the fresh feed is split and fed to at least 2 reactors to control the temperature as called for in the claim. One having ordinary skill in the art who studies the specification of this application, namely examples 1 (as comparative) and 2 would recognize that splitting the feed reduce the stress of the reaction temperature. As a result, the life of the catalyst is expected to be longer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan D. Dang whose telephone number is 571-272-1445. The examiner can normally be reached on Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on 571-272-1444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
